Stationery & Office Supplies:

The existing framework agreement with Office Depot will expire on 3rd September. The Office of Government Procurement has advised public bodies that it will be late 2015 at the earliest before they have a new framework in place. ETBI, in conjunction with Education sector partners, are in the process of organising a short term contract to meet our needs. However, it will probably be October before this will be in place.

From 4th September, Head office, Schools, Colleges and Centres will be obliged to seek best value for the supply of stationery and office supplies by seeking quotations from three suppliers for the supply of stationery until ETBI advises us of the new arrangement. All schools, colleges and centres will be obliged to use the new framework when it is up and running and I will update you as soon as I receive the details.

Office Depot has issued a new catalogue which will come into operation on 4th September. The prices quoted therein may be used as one quotation for your stationery supplies. You are still obliged to seek additional quotations before issuing orders for Stationery Supplies. I will attach a copy of the catalogue to this email for your information. You are under no obligation to use this catalogue as one of your three quotations.
